Drinking with environmental concerns?
Worry a little less and choose one of our
local offerings to reduce overall carbon
footprint!

SILVER TREE BEER AND SPIRITS (Paxton IL) are clients of our cooperage, along with **Two Eagles** (Mt Prospect), and **Judson and Moore** (Chicago). While, as a small cooperage we cannot meet all of their barrel demands, we enjoy providing them with as many premium barrels as possible for their offerings. The Glazik Brothers of Silver Tree also provide organic grain to many distillers in the region, including Two Eagles and Judson and Moore, from their 5th generation family farm (Cow Creek Farm).

As a farmer, Distiller, and Scholar of Environmental Science, Dallas Glazik (silver Tree) has conducted distillate studies at University of Illinois and is a staunch environmentalist working with the organization 'Pheasant's Forever'. Proceeds from their 'Ringneck Rye' go directly to building wildlife habitat for pheasant propagation.

'TAKE A SHOT AT CLIMATE CHANGE'!

Silver Tree's sustainable farming practices sequester two tons of CO₂ per year! That means every 750ml bottle offsets the carbon waste of a car driving 4 miles! Join them in their fight against climate change (and have fun doing it)!
